

Newsletter Issue 1

One year of MuSiC4Diabetes

Interview with our Coordinator: The first year of **MuSiC4Diabetes** is over and together with our Coordinator **Martin Richter**, we took this opportunity to reflect on the project, how it actually all started and the special approach our consortium is working on.

Welcome to our Knowledge Hub

How did the management of diabetes evolve over the years? What are the algorithmic processes within the device developed in **MuSiC4Diabetes**? What are glycaemic changes and what are they influenced by? These and more questions are answered in our latest website section '[knowledge hub](#)'.

The MuSiC4Diabetes Advisory Board

[Interview with Nicolas Santoro:](#) Meet Nicolas Santoro, Yale School of Medicine Professor and Scientific Advisor in **MuSiC4Diabetes**! In an interview, the associate professor in Pediatrics with a focus on diabetes tells us about his background, how he came to be an advisor for **MuSiC4Diabetes** and what he thinks will make the biggest difference if **MuSiC4Diabetes** is successful.

Interview with Peter Lord: Pete Lord, founder of Portal Diabetes, long time diabetes researcher and one of the minds actively engaged in making the **MuSiC4Diabetes** project possible, talks about GCM devices, the USP of the M4D device, challenges in diabetes management and what makes this project a special one.

Claudio Cobelli receives Medal of Honour

Claudio Cobelli, PI of our project partner University of Padova, has received a **medal of honour** from the Italian Diabetes society in view of his tireless work in diabetes research. The whole consortium congratulates him to this achievement!
